MESSAGE FROM THE PRESIDENT

Dear Friend of Cameron,

I am pleased to present Plan 2023: Ambitious Goals for Growth, Innovation and Engagement, a long-term strategic plan designed to guide Cameron University's growth, development and allocation of resources for the next five years. Cameron University continues to transform its planning practices and processes. Our fourth strategic plan builds upon the foundation of successes and lessons learned from Plan 2008: Preparing for Cameron University's Second Century, Plan 2013: Choices for the Second Century and Plan 2018: Values Driven, Action Oriented.

The strategic planning cycle started in September 2016 under the leadership of Associate Professor Dana Hilbert. Input was solicited from all Cameron stakeholders - students, faculty, staff, alumni and community members - through listening sessions, surveys and meetings. The results included a reaffirmation of the mission and core values of Cameron University and a comprehensive assessment of our progress to date to meet the ambitious goals set forth in Plan 2018. Our commitment to diversity of viewpoints, experiences and participants remains true to our values. Shared governance continues to provide opportunities for discussion, deliberation and understanding among all university constituencies.

Throughout the document, cross-cutting themes are evident. As always, student learning and student success are front and center. Cameron University will strengthen its investment in the development and retention of highly qualified personnel and the improvement of facilities and technological resources. Finally, the institution will recommit itself to advancing the brand and identity of Cameron University for its students, employees, and alumni.

For the five years beginning in academic year 2018-2019, Plan 2023: Ambitious Goals for Growth, Innovation and Engagement will be our guiding document to assure we further the mission of Cameron University. We remain fully committed to the educational, cultural, and economic advancement of the communities we serve.

Sincerely,

John McArthur, President

PATH TO 2023

In order to provide the best possible educational experience to our students and the communities we serve, Cameron University utilizes a long-term, strategic planning process to guide its growth, development and the allocation of resources in five-year increments.

Plan 2018: Values Driven, Action Oriented is Cameron's most recent strategic plan, and is nearing its completion. It built upon the foundation and successes of Cameron's first two strategic plans, Plan 2008: Preparing for Cameron University's Second Century and Plan 2013: Choices for the Second Century. This document reflects two years of work by a dedicated campus community of students, faculty, staff, alumni and community members to build upon the first three strategic plans.

The Strategic Planning Committee, under the faculty leadership of Dr. Dana Hilbert, was charged with developing a planning process that embraced the following criteria: an authentic and stakeholder-valued process; maximum stakeholder participation; transparency of planning process; opportunities for feedback throughout the planning, listening, and information gathering process; and a multi-modal communication approach with a mix of high-touch and high-tech opportunities.

The listening process began in Fall 2016. Analysis of results from listening sessions, focus groups, surveys and other instruments was conducted over Summer 2017 with draft development in Fall 2017. Campus stakeholder comments and further discussions to refine *Plan 2023* were undertaken in Spring 2018.

CONCLUSION

Plan 2023: Ambitious Goals for Growth, Innovation and Engagement will serve as the strategic document to guide Cameron University through its next five years. Plan 2023 will be the standard against which all campus initiatives are measured. It will ensure the institution continues to grow in a direction that has been thoughtfully planned and is consistent with the mission and core values held in common by the Cameron University community.

Each year, the goals and objectives outlined in this document will be used to identify specific and measurable annual actions for planning and budget allocation. Actions will be assigned with benchmarks or targets to measure progress or success. Progress reports will be compiled on an annual basis for communication to university stakeholders. At the conclusion of *Plan 2023* a summary document will be published.

With an institutional foundation rooted in the growth and prosperity of Southwest Oklahoma since 1908, Cameron University continues to build upon past successes and lessons learned to improve. Based on proven strategic planning, Cameron stands ready for its future and will take actions to deliver its students a comprehensive educational experience. We will support and nurture growth, innovation and engagement for our students, employees and stakeholders.
